

Partnership Overview

Mutual Coin Capital is a cryptocurrency fund management company offering investors the opportunity to participate in supporting emerging blockchain-based technologies. Our team of analysts and traders intelligently identify future drivers of value in the cryptocurrency space by assessing each project’s teams, technology, whitepapers, sustainability, problems solved, appropriate use of blockchain technology, and it’s token economics. To date, we have invested in companies helping people access cryptocurrencies, cross-border payments, enterprise blockchains and new protocols.

REGULATION D 506(C) MANDATED LEGEND Any historical performance data represents past performance. Past performance does not guarantee future results; Current performance may be different than the performance data presented; The Company is not required by law to follow any standard methodology when calculating and representing performance data; The performance of the Company may not be directly comparable to the performance of other private or registered funds or companies; The securities are being offered in reliance on an exemption from the registration requirements, and therefore are not required to comply with certain specific disclosure requirements; The Securities and Exchange Commission has not passed upon the merits of or approved the securities, the terms of the offering, or the accuracy of the materials. The risk of loss in cryptocurrency investment can be substantial. All investments in the cryptocurrency and blockchain technology market should be made with risk capital only. Investors should never invest more than they can comfortably afford to lose. As with all investing strategies, past performance is not necessarily indicative of future results. Therefore carefully consider whether such trading is suitable for you in light of your financial condition.
